

Governor of The Term - T2 2015/16.

Apart from the usual meetings with the HT and Business Manager I met with the PPG Lead and HT on 19.11.2015 when we also made a Learning Walk around the school. As I do not spend a lot of time in school during the "working day" it was a great opportunity to see the staff in action and the pupils going about their usual school day.

Comments as follows:

In talking with staff in class and the staff room it was good to hear that the Target Tracker system is now being used by everyone and the benefits of the system are also appreciated.

PPG monitoring looks in good shape a report was made to the governors and there will be some follow up meetings held.

Very good atmosphere in the classrooms and a good balance of class teaching, smaller groups and 1:1 tuition with TA's where appropriate.

Breakfast Club numbers using this facility look good and it is an important asset for the school to develop
