

THE WHISPERER

Edition 3
February 2015

Welcome to edition three of the pupil newsletter! A very big thank you is needed to Mrs Voss go for lending us her classroom at lunch times. Also, another thank you to all the people which helped us across the world, literally!

Y3 have been working extremely hard to create an amazing mosaic [designed by Ivy Bowley, Y3]. All of Year 3 took part in making this amazing creation, along with Mrs Grey and some parent helpers. Here is a picture of this amazing creation!

Before the half term, the Year R buddies wanted to say thank you to their Year 6 buddies. They decorated the hall for a very special Buddy Ball, came dressed as knights and princesses and danced away until home time. They even prepared a couple of special dances that they performed with all the year 6's! Well Done Year R, I bet they enjoyed the ball!

The guitar lessons that are happening in school are the best sort of school lessons- they are amazing! Jim, the guitar and ukulele teacher, has a full waiting list but don't let that stop you! If you want to start an instrument, then I would start with a ukulele, and then progress onto a guitar (because a ukulele is basically a small guitar.) Guitar lessons would be immensely fun; it would be amazing!

The people doing the Whisperer this term are-

Team Leader- Oliver Kocharski (Y6)

Team – Hannah Clark(Y6), Harrison Boon(Y5), Libby Hudson (Y4) & Amelia Bell (Y3)

This month, we are looking at Uganda schools and orphanages. To help us a kind man called Emmanuel who lives in Uganda told us about his orphanage and school.

Q1. How do children apply for your orphanage ? Children joining as Orphans to Bunabumali Good Samaritan Orphan & Needy Project are selected By My Mother Gertrude Nakhokho who selects as per the Needy children or Orphans who have both Parents Dead by either HIV AIDS / Mudslides.

Q2. How many children can you accommodate ? The Whole project can accommodate 500-1000 Children as per our education standard for school but for the case of accommodating children who can sleep at project we can hold 100 children but at the moment we have 40 children who sleep at project .

Q3. Do the children appreciate how lucky they are to have school? They appreciate a lot because some of them who have joined High (secondary) school are glad and happy.

Q4. What is a normal school-day for the children? Norman school in Uganda education is 8:30am - 4:00pm at our school we start classes at 7:00am- breakfast at 10:30am -11am then Lunch at 1:30pm-2:00pm then studies continue up to 6pm and we have preps from 7am -10pm then early morning preps at 5am-6am

The Orphanage has a website , it is:
<http://www.bunabumali.org/about-us.html>

BANANA

FRUIT OF MONTH

Bananas are good sources of energy and are actually classified as berries, which is rather weird! They're also really delicious to eat. There are lots of types of bananas but the supermarkets only stock one or two types, some are different colours and they look horrible, at least ours look delicious.

The competition this time is to make or draw a musical instrument. If you want to just draw it you can draw it onto some A4 paper with your name and class on the back. Then if you want you can write a short paragraph explaining information on your instrument. If you wish to make it then draw it onto a piece of A4 paper (just a plan) with your name and class on the back. Next you can make it out of anything you like(you could use CDs , old data wiped memory sticks, anything you can think off!) Just make sure your design is under 20cm tall. For all entries simply (if you made the instrument) make a small tag to be attached to it so I know whose it is . Have it in by the 26th Of March to Oliver in Y6. GOOD LUCK!

SAYING OF MONTH

"All your dreams can come true if you have the courage to pursue them."
-- Walt Disney

"The world is a dangerous place to live, not because of the people who are evil, but because of the people who don't do anything about it."
Albert Einstein.

SPORT OF THE MONTH

HOCKEY

Hockey can be played in various countries. One of the most famous Hockey players [he was the goalie] was Patrick Roy.

To play hockey you need to first get the equipment that the class requires. When you play you need to bend down and hold the Hockey Stick with your left hand on the top and right hand on the bottom. Next, you will need to learn how to dribble. Practice walking around the place, controlling your ball using the flat side of the hockey stick. Now you're dribbling!

This picture was chosen as it is a new type of art-scissor art.
