

## How will the school identify and / or let me know if my child has SEN?

Your child will be frequently monitored and assessed across the curriculum at regular intervals. Any additional support given which is different to or in addition to the normal curriculum will be added to our whole school provision map so that progress can be further monitored. Parents will be informed if their child is added to this additional provision, which is usually updated every 6 weeks. Key information will be communicated to parents in a variety of ways; through parent's evenings, SEN parent surgeries, through IEP meetings (if an individual education plan is in place) or at the request of parents.
