

What should I do if I think my child has special educational needs?

Please feel free to contact the school for an initial chat with the school Senco if you have any concerns prior to your child starting school. The Senco will then make contact with any pre-school settings that your child attends to begin to build a picture of individual needs. Good communication between all parties is very important to ensure that families feel confident that their child's needs will be met when they start school. The Senco and class teacher will then work together to ensure your child has everything they need to begin their learning journey with us.
