

## What specialist services and expertise are available at or accessed by the school?

Through the Wiltshire referral system we can refer pupils to a range of services. These include:

- Wiltshire speech and language therapy service
- Behaviour support service
- Occupational therapy service
- CAMHS for support with mental health issues
- SSENS service for support with issues surrounding cognition and learning e.g when a pupil is displaying several dyslexic tendencies.
- Traveller Education Service for those pupils from the travelling community
- Wiltshire visual/hearing impairment service

The school will initially collect evidence to support a request for one of the above services. The school Senco carries out any referrals.
