Accessibility Plan 2017-2019

Ashton Keynes School has been described as having a welcoming and delightfully happy environment in which pupils thrive and want to do their best. We want all children to enjoy school, to be challenged to achieve their very best, and to consider their time at the school as their own learning adventure. We are committed to giving all of our children every opportunity to achieve the highest of standards. We do this by taking account of pupils varied life experiences and needs. We offer a broad and balanced curriculum and have high expectations for all children. The achievements, attitudes and well-being of all our children matter.

Purpose of Plan

This plan shows how the school intends, over time, to increase the accessibility of our school for disabled pupils, staff, parents/carers and visitors.

Definition of disability;

A person has a disability if he/she has a physical or mental impairment that has a substantial and long-term adverse affect on his/her ability to carry out normal day-to-day activities.

Areas of planning responsibilities

Increasing access for disabled pupils to the school curriculum (this includes teaching and learning and the wider curriculum of the school such as participation in after-school clubs, leisure and cultural activities or school visits).

Improving access to the physical environment of schools (this includes improvements to the physical environment of the school and physical aids to access education).

Improving the delivery of written information to disabled pupils (this will include planning to make written information that is normally provided by the school to its pupils available to disabled pupils. The information should take account of pupils disabilities and pupils and parents preferred formats and be made available within a reasonable timeframe

Contextual Information

Ashton Keynes School has been in its current location since 1896. The original Victorian building houses the admin areas and classrooms. A 1990s single storey building houses the school hall and kitchen and there are three temporary classrooms currently in use. There are several small rooms on the first floor of the older building. A Disabled toilet is available on the ground floor.

The old school house is used for administration purposes and contains the reception area, school office, meeting room and staffroom. Access to the school house is via several steps at the front with a permanent ramp at the rear.

The reception children are housed in a modern single storey building, which has steps for access. A ramp could be added if needed. The modern single story classroom for the KS1 classes has a removable access ramp. The main entrance to the School has level access however all points of access from the main building contain steps.

At present we have no wheelchair dependent pupils, parents or members of staff. However we do have wheelchair users visiting the school and the main facilities are available to them.

Current Range of known disabilities; The school has children with a range of disabilities to include moderate and specific learning disabilities.

We have a small number of pupils and parents who have a hearing impairment

Increasing access for disabled pupils to the school curriculum

Improving teaching and learning lies at the heart of the schools work. Through self-review and Continuous Professional Development (CPD), we aim to enhance staff knowledge, skills and understanding to promote excellent teaching and learning for all children. We aim to meet every child's needs within mixed ability, inclusive classes.

It is a core value of the school that all children are enabled to participate fully in the broader life of the school. Consequently, all children have always been permitted to attend age relevant after school clubs, leisure and cultural activities and educational visits.

Improving access to the physical environment of the school

Ashton Keynes School is continuing to grow and develop. It is hoped that in the future we will be able to expand the buildings and to improve the facilities.

Provision, in exceptional cases, will be negotiated when pupils' specific needs are known. We will always assess each child's needs and adapt accordingly.

We have a wide range of equipment and resources available for day-to-day use. We keep resource provision under constant review. The schools Improvement planning process is the vehicle for considering such needs on an annual basis.

Improving the delivery of written information to disabled pupils

This will include planning to make written information that is normally provided by the school to its pupils available to disabled pupils. Examples might include handouts, textbooks and information about school events. The information should take account of pupils

disabilities and pupils and parents preferred formats and be made available within a reasonable timeframe.

In planning to make written information available to disabled pupils we again need to establish the current level of need and be able to respond to changes in the range of need. The school will need to identify agencies and sources of such materials to be able to make the provision when required. The schools ICT infrastructure will enable us to access a range of materials supportive to need.
