

This booklet contains suggested homework for the next 5 weeks.

It contains a variety of fun activities for you to do with your child at home.

We expect your child to continue to share a reading book with you daily and practise reading the words in their word books.

Please bring your completed homework activity (if applicable) in to show us on **Wednesdays**. If you want to bring in a photo of you doing one of the activities that would be lovely.

Try your best and have fun!

Class R Homework Booklet Term 4

Week 1 (w/c 2nd March)

Imagine and draw your own dinosaur. Write about your dinosaur using these prompts for ideas:

- What is it called?
- What does it like to eat?
- How does it move?
- What size is it?
- Does it walk/fly/swim?

Week 2 (w/c 9thth March)

It's science week this week!

Have a look at sciencebob.com and have a go at an experiment. We'd love to see photos/film of what you did! Email it to the office and they will forward it to us.

Week 3 (w/c 16th March)

In maths this week we are learning about doubling. With a couple of dice, try some doubles challenges like these...

How many doubles can you throw in 1 minute? Take turns to throw the 2 dice. Who throws the most doubles? How many double 6s can you throw?

Maybe you can make up a doubling game of your own which you can share with us.

Weeks 4 and 5 (w/c 23rd March)

Hopefully you will be seeing some lovey spring flowers in your gardens this week.

We'd love to see a beautiful spring picture. You could use paints, felt tips, colouring pencils or even make a collage using paper or fabric.

Most of all we want to see your own work (not Mummy or Daddy's!).

We hope you have enjoyed this term's homework. Have a lovely holiday.
