

The most important thing about **Design and Technology** is solving problems

We research

We design

We evaluate

And we develop our ability to think critically and innovatively

But the most important thing about **Design and Technology** is solving problems

[DT Progression KS2](#)

Pupil Groups - We scaffold learning for individuals, offering challenge and support through a variety of teaching approaches, the tools used and shared experiences.

## SHINE BRIGHT - REACH FOR THE STARS

Approach - We develop skills using progressive skills ladders, allowing learners to experience the use of tools and processes, refining their fine motor skills and solving problems.
