

to recognise the length values of crotchets, quavers, minims, semibreves and rests. Wednesday 21.04.21
know the names of different types of notes. I know the length that these notes last.

support

I can draw and label:

quaver A crotchet

minim A semibreve

I can solve musical maths 1.

I can draw and label:

quaver A crotchet

minim A semibreve

I can solve musical maths 1 and 2

Using the word mat to help I can solve Music addition level 2.

2**

I can draw, label and give the value of:

A quaver A crotchet

A minim A semibreve

I can solve Music addition level 2.

2**

I can draw, label and give the value of:

A quaver A crotchet

A minim A semibreve

I can solve Music addition level 2.1
and colour the rhythm sheet.

Crotchets are worth one beat.

Quavers are worth half a beat.

Here are two quavers together. They are worth half each.

This is a crotchet rest.
You don't play. It is worth 1 beat

This is a minim it is worth 2 beats.

This is a semibreve it is worth 4 beats.

Music Addition Level 2 - #1

Write the number of beats next to the rhythms, then determine the sum of each equation.

1. $\text{quarter note} + \text{half note} + \text{quarter note} = 6 \checkmark$
2. $\text{quarter note} + \text{quarter note} + \text{half note} = 7 \checkmark$
3. $\text{quarter note} + \text{quarter note} + \text{quarter note} = 4 \checkmark$
4. $\text{quarter note} + \text{quarter note} + \text{quarter note} = 3 \checkmark$
5. $\text{half note} + \text{quarter note} + \text{quarter note} = 6 \checkmark$
6. $\text{quarter note} + \text{quarter note} + \text{quarter note} = 4 \checkmark$
7. $\text{quarter note} + \text{half note} + \text{quarter note} = 6 \checkmark$
8. $\text{quarter note} + \text{quarter note} + \text{quarter note} = 5 \checkmark$
9. $\text{quarter note} + \text{quarter note} + \text{quarter note} = 4 \checkmark$
10. $\text{quarter note} + \text{quarter note} + \text{half note} = 6 \checkmark$
