

Class 1 have looked at re creating famous art styles using computer software.

Inspired by Kandinsky's *Squares with Concentric Circles*

To create patterns and shapes in the style of Kandinsky's Colour Study, *Squares with Concentric*

Class 5 used their cross curricular history skills to create a word processed newspaper article all about the Vikings.

St. Cuthbert's Chronical

9th June 798AD10 bronze coins

VICIOUS VIKINGS RAID LINDISFARNE

There people were screaming left and right but the Vikings had no mercy. Lindisfarne was demolished and there were dead bodies all on the ground. "This was crime! They had no right!" said a priest. The village was burned down except Lindisfarne: it had been made out of stone. The Vikings were crazy and out of their minds.

The Vikings took everything including the gold and treasures. "The vicious Vikings ruined EVERYTHING!" Shouted the holy men furiously. The Vikings took almost everything but they left one thing... the coffin.

Only the priest of Lindisfarne and 9 other people were left alive. Petrified, others ran for their lives and escaped the burning village. "They stole everything from us!" said a child from the village. All that's left of Lindisfarne is wrecked building and dead bodies. The Ruthless Raiders murdered everything and everyone in sight. "It was a tragedy! We are left with nothing!" said a local monk.

The Vikings were vicious but the monks were also strong. About 10 monks escaped from the Vikings but most of the village didn't make it out...

Class 4 used Scratch to look at programming. They had fun making their Sprites and change its costumes, edit a backdrop and make their sprite say something!
